INDEX TO VOLUME 26

Page

ACADEMY of Natural Sciences of Philadelphia, Pennsylvania, Twenty-seventh Annual Meeting of the Geological Society of America held at. 5
———————, Vote of thanks to.... 110
ACADIAN Triassic; Sidney Powers..... 93
ADAMS, F. D., cited on pressure on cylinders of granite..... 187
—, Memorial of Alfred Ernest Barlow by 12
ADAPIDÆ and other Lemuroidea, Observations on; W. K. Gregory..... 153
———— Primates, On the relationship of the Eocene Lemur *Notharctus* to the 419
AFFINITIES of Hyopsodus; W. D. Matthew 152
AFRICA, Sauropoda and Stegosaurs of Tendagura of German East..... 326
AGASSIZ, A., A naturalistic model of a topographic type first introduced into an American museum by..... 80
—, Reference to views on coral reefs by. 78
AGASSIZ, LOUIS, cited on coralline algæ. 60
AGE of the Red Beds of western Wyoming 229
AIRY, ——, cited on hypothesis of crust of the earth..... 178
AKERITE (Hypersthene syenite) of Blue Ridge region, Virginia..... 82
ALABAMA, Crystalline marbles of..... 104
ALBERTA Belly River beds equivalent to Judith River beds of Dog Creek and Cow Island, Montana. Evidence proving 149
ALDEN, W. C., Discussion of geological history of the Bay of Fundy by... 95
ALEXANDRIAN rocks of northeastern Illinois and eastern Wisconsin; T. E. Savage 95, 155
ALGÆ of the Ordovician iron ores of Wabana, Newfoundland, Fossil.... 148
ALGAL and bacterial deposits in the Algonkian Mountains of Montana, Occurrence of; C. D. Walcott..... 148
ALGONKIAN Mountains of Montana, Algal and bacterial deposits in..... 148
AMERICAN Association for the Advancement of Science, Address by J. S. Diller, retiring Vice-President of Section E of the..... 111
———————, Affiliation of Cordilleran Section with..... 132
— Scenic and Historic Preservation Society, custodian of John Boyd Thacher Park..... 110
— Social Science Association, "Geographic sculpture" first honored in this country by..... 80
— Triassic invertebrate faunas and their relation to those of Asia and Europe 412
AMI, H. M., Discussion of classification of aqueous habitats by..... 158
—, Remarks on crustal movements in Lake Erie region by..... 67
———— evidence of recent subsidence on the coast of Maine by..... 92
———— glacial erosion by..... 73
———— the origin of thick salt and gypsum deposits by..... 104
ANALYSES of obsidian from Iceland, Tables of chemical..... 260

Page

ANALYSIS, Lithophysæ of the obsidian. 259
ANNUAL dinner of Cordilleran Section at the Faculty Club of the University of Washington, Seattle..... 138
———— Society at Hotel Walton..... 104
ANTICYCLONES above continental glaciers, New evidence of the existence of, fixed; W. H. Hobbs..... 73
ANTHOZOA and the systematic position of Paleozoic corals, Evolution of the 157
AQUEOUS habitats, A classification of; Marjorie O'Connell..... 159
ARID erosion, A measure of; Charles Keyes 404
ARIZONA, Bajadas of the Santa Catalina Mountains..... 391
ARNOLD, RALPH; Correlation of the Lower Miocene of California..... 415
—, Excursion of California Meeting, August 14, 1915, in charge of..... 417
ARUNDEL formation, Reptiles of..... 337
APLODONTIA group, History of; W. P. Taylor 417
ASIA and Europe Triassic invertebrate faunas and their relation to the American 412
ASHLEY, G. H.; Physiographic study of the Cretaceous-Eocene period in the Rocky Mountain front and Great Plains provinces..... 105
ASPHALT beds of McKittrick, California, Occurrence of mammal remains in the 167
ATLANTIC and Gulf Coastal Plain, Cretaceous-Eocene contact in the..... 168
ATWOOD, W. W.; Relation of physiographic changes to ore alterations. 106
—, Speaker at annual dinner..... 104
AUDITING Committee of the Geological Society 11
———— Paleontological Society..... 146
——, Report of..... 87

BACTERIAL and algal deposits in the Algonkian Mountains of Montana, Occurrence of; C. D. Walcott..... 148
BAIN, H. F., elected Chairman of Cordilleran Section..... 131
BAJADAS of the Santa Catalina Mountains, Arizona; C. F. Tolman, Jr.. 391
BAKER, ——, cited on interglacial deposits 251
— quoted on the Fleming of the Navasota region..... 469
BARBAGALLO, A., and D. CARUSO, Depth of Etna crater measured by..... 383
BARLOW, ALFRED ERNEST, Bibliography of 15
—, Memorial of..... 13
—, Photograph of..... 12
BASCOM, F.; Magmatic assimilation.... 82
—; Pre-Cambrian igneous rocks of the Pennsylvania Piedmont..... 81
BASIC rocks of Rhode Island: their correlation and relationships; A. C. Hawkins and C. W. Brown..... 92
BASIN range faulting in the northwestern part of the Great Basin; G. D. Louderback 138
BASINS within the hamada of the Libyan desert, Origin of..... 396

Page

BASSLER, R. S., Discussion of the Trepostomata by..... 158
—, Secretary of the Paleontological Society 141
BASTIN, C. S., Discussion of colloidal migration in ore deposits by..... 394
— — — papers bearing on ore deposition by..... 403
—, Remarks on the Coal Creek batholith by..... 399
BAY of Fundy, Geological history of; Sidney Powers..... 94
BAYLEY, W. S., Remarks on revision of pre-Cambrian classification in Ontario by..... 88
BARRELL, JOSEPH, cited on ancient delta deposits 221
— — — radioactive transformation.... 194
—, Remarks on evidence of recent subsidence on the coast of Maine by.. 92
BARUS, ——, cited on diabase melting-point curve..... 197
BEACHES of Lake Algonquin, Battlefield, and Fort Brady..... 69
BECKER, G. F., Address of retiring President; Isostasy and radioactivity.. 86, 171-204
— and —— JOLY cited on difference of opinion as to age of the earth.... 201
—, President, Telegrams on account of illness to and from..... 57
—, retiring President; Isostasy and radioactivity 86, 171-204
BELLY River beds of Alberta equivalent to the Judith River beds of Dog Creek and Cow Island, Montana; C. H. Sternberg..... 149
BEREA grit in Ohio, Diastrophic importance of the unconformity at the base of the; H. P. Cushing.... 205-216
— sandstone in Ohio..... 96, 155, 205-216
BERKEY, C. P., Discussion of basic rocks of Rhode Island by..... 92
—; Geological reconnaissance of Porto Rico 113, 156
BERLIN Museum, Skeleton of dinosaur from German East Africa in the.. 153
BERNARDINI, L., cited on fumaroles of Vesuvius 377
BERRY, E. W., and —— CAMPBELL cited on the Morrison and the Kootenai formations 305
— cited on Comanchian floras..... 301
— — — correlation of Potomac formations 336
— — — the Potomac plants in the Patuxent formation..... 304
—; Paleobotanic evidence of the age of the Morrison formation, 90, 151, 335-342
— quoted on Morrison and Kootenai faunas 346
BIBLIOGRAPHY of Alfred Ernest Barlow. 15
— — Horace Carter Hovey..... 25
— — Joseph Le Conte..... 54
— — Newton Horace Winchell..... 31
— — *Notharctus* and Lemuroidea..... 443
— — Trepostomata 366
BICKMORE, ALBERT SMITH, Memorial of. 18
—, Photograph of..... 18
BIRDS (fossil) of the west coast, Some problems encountered in the study of; L. H. Miller..... 417
BLACKWELDER, ELIOT; Origin of the Rocky Mountain phosphate deposits 100
BOHEMIAN moldavites, Reference to..... 265
BOLSONS, Some physiographic features of 392
BOLTWOOD, ——, cited on lead production 190

Page

BORABORA, Tahiti, Coral island model of 79
BOUGUER, PIERRE, cited on measurement of the Peruvian arc and attraction of Chimborazo..... 172
BRACHIOSAURUS, Reconstruction of the skeleton of; W. D. Matthew..... 153
BRANCA, ——, cited on skeleton of dinosaur from German East Africa in Berlin Museum..... 153
BRANNER, J. C., Chairman Cordilleran Section 135
—, Discussion of Eocene of the Cowlitz Valley, Washington, by..... 136
— — — Geological Survey of Brazil and plans of Oregon Bureau..... 138
— — — Tertiary sedimentaries and lavas by..... 137
—, Faulting in the Great Basin discussed by..... 139
BRANSON, E. B.; Origin of the Red Beds of western Wyoming.. 61, 217-230
—; Origin of thick salt and gypsum deposits 103, 231-242
— and D. K. GREGER; Devonian of central Missouri..... 112, 156
BRETZ, J. H.; Pleistocene of western Washington 131
BREWSTER, ——, cited on fundamental laws of the optical behavior of glass 283
BRIDGMAN, P. W., cited on pressure on sealed hollow cylinders of glass... 187
BRITISH COLUMBIA, Deformation of the coast region of..... 406
— —, New species of Ficus from the interglacial deposits of the Kootenay Valley..... 159
BRÖGGER, ——, Reference to akerites of Norway described by..... 82
BROOKLYN channel, Cleveland, Ohio, The 206
BROWN, C. W., and A. C. HAWKINS; Basic rocks of Rhode Island: their correlation and relationships..... 92
BROWN, E. W., cited on recent researches on the moon..... 184
BROWN, N. H., Reference to amphibian skulls collected in the Popo Agie beds of Wyoming by..... 220
BROWN, T. C.; Evolution of the Anthozoa and the systematic position of Paleozoic corals..... 157
BRUN'S hypothesis on volcanoes cited.. 375
BRYANT, W. L., and L. HUSSAKOF; Fish fauna of the conodont bed (basal Genesee) at Eighteen-mile Creek, New York..... 154
BUFFALO Society of Natural Science Museum, Catalogue of fossil fishes in the..... 154
BULLETIN, Distribution of..... 5
BUNSEN, ——, cited on obsidian analysis 262
BUTLER, G. M.; Plea for uniformity and simplicity in petrologic nomenclature 134
BUTTE, Montana, Replacement of earlier sulphide minerals by later sulphides at 402
BUWALDA, J. P., Excursion of California Meeting, August 12, 1915, in charge of..... 417
— introduced by A. C. Lawson..... 403
—, Remarks on geology of portions of western Washington by..... 397
—; Structure of the southern Sierra Nevada 403

Page

CAHOKIA group of mounds, Monks Mound largest of..... 74
CALCIUM carbonate, Relation of bacteria to deposition of; Karl F. Kellerman 58
CALIFORNIA Coast Range region, Heave fault-slipping in the..... 404
—, Correlation of the Lower Miocene of. 415
— Cretaceous floras compared with those of other Cretaceous areas... 414
— — invertebrate faunas, Correlation of 414
—, Faunal geography of the Eocene of. 416
—, Fauna of the Lower Monterey of Contra Costa County..... 167
—, Geology of a portion of the Santa Ynez River district, Santa Barbara County 401
—, Note on the Cretaceous Echinoderms of..... 166
—, Occurrence of mammal remains in the asphalt beds of McKittrick; N. C. Cornwall..... 167
—, Recent eruptions of Lassen Peak... 105
—, Review of the Miocene and Oligocene faunas of..... 416
—, Summer Meeting of the Geological Society of America, 1915, held in.. 389
—, Tentative correlation table of the Neocene of..... 167
— Tertiary formation, Vertebrate fauna in the marine Tertiary significant in determining age of..... 168
CALKINS, F. C., and J. A. TAFF, Excursion of California Meeting, August 10, 1915, in charge of..... 408
CAMP, C. L.; Extinct toad from Rancho La Brea..... 167
CANTON, New York, topographic quadrangle 287
CAPELLOS, Dr. ——, First descent into Vesuvius crater made by..... 378
CARNEY, FRANK, cited on glacial erosion on Kellys Island, Ohio..... 70
CASTORIDÆ, Outline of the history of the; W. P. Taylor..... 167
CHADWICK, G. H.; Post-Ordovician deformation in the Saint Lawrence Valley, New York..... 115, 287-294
CHALCOCITE in the fluorspar veins of Jefferson County, Colorado, primary; Horace B. Patton..... 84
CHALMERS, ——, cited on interglacial beds of land and fresh-water shells. 251
CHAMBERLIN, R. T., Remarks on the structure of the southern Sierra Nevada by..... 404
CHAMBERLIN, T. C., cited on distribution of compensation by a law.... 180
— — — glacial erosion..... 70
— — — "The shelf seas of the Palezoic and their relations to diastrophism" of..... 306
— and Salisbury's text-book of geology cited on glaciation..... 109
CHATTANOOGAN series, Kinderhookian age of the..... 96, 155
CHRONOLOGY and correlation on the basis of paleography; Charles Schuchert 411
CLAIRAUT'S and Stokes' theorems on density of earth compared..... 175
CLAPP, C. H.; Deformation of the coast region of British Columbia..... 406
—, Rocks near Strathcona, Vancouver Island, Canada, named Sutton limestone and Wark diorite by..... 82
CLARK, B. L., Remarks on pisolites at San Antonio, Texas, by..... 398
—; Review of the Miocene and Oligocene faunas of California..... 416

Page

CLARK, B. L.; Tentative correlation table of the Neocene of California.. 167
— and A. C. LAWSON, Excursion of California Meeting, August 9, 1915, in charge of..... 407, 417
CLARK, J. D., introduced by C. F. Tolman, Jr..... 394
—; Role of colloidal migration in ore deposits 394
CLARK, R. B.; Fauna of the Lower Monterey, Contra Costa County, California 167
CLARK, W. B., cited on Potomac invertebrate fauna..... 345
—, Report of Treasurer..... 8
CLARKE, J. M.; Causes producing scratched, impressed, fractured, and recemented pebbles in ancient conglomerates 60
—, Chairman of First Section..... 90
—, Discussion of Acadian Triassic by.. 94
— — — classification of aqueous habitats by..... 158
— — — Paleozoic stratigraphy about Three Forks, Montana, by..... 157
— — — Shawangunk formation of Medina age by..... 150
—, Discussion on ancient man by..... 149
—, Member of Auditing Committee.... 11
—, Memorial of Horace Carter Hovey by 21
—; Pic D'Aurore section..... 150
—; Type of rifted relict mountain, or rift-mountain 90
— and W. D. MATTHEW; Peccaries of the Pleistocene of New York..... 150
CLARKE'S "Data of Geochemistry," Citations from..... 233
CLIMATIC oscillations, Graphic projection of Pleistocene; C. A. Reeds... 106
CLINE, J. H., and T. L. WATSON; Hypersthene syenite (akerite) of the middle and northern Blue Ridge region, Virginia..... 82
CLEVELAND, Ohio, Natural gas at..... 102
COAL Creek batholith, Geologic age and geology of the Colorado Front range 398
COAL field of Pierce County, Washington, Structure of..... 132
— fields of New Mexico, Certain structural features in the; C. T. Kirk.. 405
— Measures, Scaled amphibia of the... 154
COALINGA east side field, Relations of the Santa Margarita formation in the 166
— district, Fauna and relations of the white shales of the..... 168
COAST of Maine, Evidence of recent subsidence on the..... 91
COCKERELL, T. D. A.; Flora of florissant. 416
COLEMAN, A. P., cited on rate of wave erosion on the shores of Lake Ontario and glacial Lake Iroquois.... 107
—; Length and character of the earliest Intergiacial period..... 243-254
COLORADO Front Range geology and geologic age of the Coal Creek batholith 398
—, Occurrence of flow-breccias in..... 399
— Plateau province, Wind sculpture of rock in..... 393
—, Primary chalcocite in..... 84
—, Recent remarkable gold "strike" at the Cresson mine, Cripple Creek.. 84
— and New Mexico, Relation of Cretaceous formations to the Rocky Mountains in..... 114, 156
COLLOIDAL migration in ore deposits, Role of; J. D. Clark..... 394

Page

COMANCHEAN of Chamberlin and Salisbury, Reference to..... 307
COMPARISON of marine vertebrates of western North America with those of other Triassic areas; J. C. Merriam 413
——— the Cretaceous faunas of Japan with those of western United States; H. Yabe..... 414
——————— floras of California with those of other Cretaceous areas; F. H. Knowlton 414
CONGLOMERATES, Causes producing scratched, impressed, fractured, and recemented pebbles in ancient; J. M. Clarke 60
CONNECTICUT, Pyrrhotite, norite, and pyroxenite from Litchfield..... 83
CONODONT bed at Eighteen-mile Creek, New York, Fish fauna of the..... 154
CONTINENTAL glaciation, Evidence of... 78
——glacier in central Illinois, Glacial erosion near margin of..... 70
COPE, E. D., cited on description of the famous skull *"Anaptomorphus" homunculus* 430
COPPER ores, Examples of progressive change in the mineral composition of; C. F. Tolman, Jr..... 394
CORAL island theory, Comprehensive; G. C. Curtis..... 78
——reefs and platforms, Various localities of..... 59
——————— reef corals of the southeastern United States, their geologic history and significance; T. W. Vaughan 58
——————— of Florida..... 59
CORALS as constructional geologic agents, Summarized statement of.. 59
——, Evolution of the Anthozoa and the systematic position of Paleozoic... 157
CORDILLERAN Section, Proceedings of... 129-140
———, Register of the Seattle Meeting.. 140
———, Visitors and other geologists taking part in the meeting of the... 140
CORNWALL, N. C.: Occurrence of mammal remains in the asphalt beds of McKittrick, California..... 167
CORRELATION and chronology on the basis of paleography; Charles Schuchert 411
——between invertebrate faunas of California and those of Mexico; E. L. Packard 414
——————— the Cretaceous of the Pacific area and that of other regions of the world; T. W. Stanton..... 414
——————— middle and late Tertiary of the South Atlantic coast of the United States with that of the Pacific coast; E. H. Sellards..... 416
——————— Miocene of the Pacific region and that of other areas of the world, Topic of California Meeting of the Paleontological Society, August 6, 1915..... 415
——————— terrestrial Triassic forms of western North America and Europe; R. S. Lull..... 413
——of Miocene, Introductory remarks on; H. F. Osborn..... 415
——————— the Cretaceous invertebrate faunas of California; T. W. Stanton..... 414
———————, Topic for the California Meeting of the Paleontological Society, August 5, 1915..... 414
——————— Lower Miocene of California; Ralph Arnold..... 415

Page

CORRELATION of the Miocene floras of western United States with those of other Miocene areas; F. H. Knowlton 416
——————— Tertiary formations in western Washington; C. L. Weaver..... 170
——————— Triassic, Symposium for California Meeting of the Paleontological Society, August 4, 1915..... 415
CORRESPONDENTS, 1914..... 118
——, Deaths reported of, 1914..... 5, 12
——deceased 127
CORRY sandstone, Marine fauna in..... 210
COUNCIL, Report of..... 5
COWLITZ Valley, Washington, Eocene of the 136, 169
CRANDALL, A. R., quoted on dikes of Elliot County, Kentucky..... 482
CRATER, Kilauea, a drop-fault..... 77
CRAWFORD, R. D., cited on flow-breccia. 400
CRETACEOUS age of the Potomac group indicated 336
——and Eocene time in North America, Reference to..... 295
——Echinoderms of California, Note on the; W. S. W. Kew..... 166
——Eocene contact in the Atlantic and Gulf Coastal Plain; L. W. Stephenson 168
——————— period in the Rocky Mountain front and Great Plains provinces, Physiographic study of..... 105
——faunas of Japan compared with those of western United States; H. Yabe. 414
——————— the Santa Ana Mountains; E. L. Packard..... 169
——floras of California compared with those of other Cretaceous areas; F. H. Knowlton..... 414
——formation, The Morrison, an initial.. 90, 151, 303-314
——formations, Relation of, to the Rocky Mountains of Colorado and New Mexico; W. T. Lee..... 114, 156
——invertebrate faunas of California, Correlation of; T. W. Stanton.... 414
——of the Pacific area: correlation between it and that of other regions of the world; T. W. Stanton..... 414
——, Recent work on the dinosaurs of the 416
——stratigraphy, Upper..... 149
——, Symposium on the passage from the Jurassic to the..... 90, 151
——time in North America, Close of Jurassic and opening of; H. F. Osborn 295-302
CRESSON mine, Cripple Creek, Colorado, Recent remarkable gold "strike" at. 84
CRIPPLE Creek, Colorado, Recent remarkable gold "strike" at the Cresson mine..... 84
CRITERIA of correlation from the point of view of the invertebrate paleontologist; E. O. Ulrich..... 410
CROOK, A. R.; Origin of Monks Mound. 74
CROSS, WHITMAN, cited on forms of igneous rocks of the San Juan Mountains of Colorado..... 399
——, Discussion of gold "strike" at Cresson mone, Cripple Creek, Colorado, by 85
——quoted on flow-breccia..... 400
——————— the production of lithophysæ.. 256
——, Remarks on effects of pressure on rocks and minerals by..... 84
——and ——— LARSEN quoted on connection of Morrison and Gunnison beds 311
CRUSTAL movements in the Lake Erie region, Preliminary paper on recent; Charles E. Decker..... 66

Page

CRYSTALLINE marbes of Alabama; W. F. Prouty 104
CULVER, H. C., Paper of F. M. Handy on role of sedimentation in diastrophism and vulcanism read by.. 138
CUMINGS, E. R., and J. J. GALLOWAY; Studies of the morphology and histology of the Trepostomata or Monticuliporoids 158, 349-374
CURIE, MADAME, cited on value of heating effect of radium..... 195
CURTIS, G. C.; Age as the determinant of character in volcanoes..... 78
—; Comprehensive coral island theory. 78
—; Evidence of continental glaciation on Mount Katahdin..... 78
— introduced by E. O. Hovey.... 77, 78, 79
—; Kilauea, A drop-fault crater..... 77
—; Naturalistic land model, the "last word in geology"..... 79
CUSHING, H. P., cited on undulation of Palcozoic rocks for the Watertown district 287
—, Chairman Third Section..... 81
—; Diastrophic importance of the unconformity at the base of the Berea sandstone in Ohio..... 96, 155, 205-216
—, Discussion of Hamilton group of western New York by..... 113
— — — North American continent in Upper Devonic time by..... 90
— — — revision of pre-Cambrian classification in Ontario by..... 88
—, Manuscript on Ogdensburg quadrangle of..... 288
— and —— ULRICH cited on refinement of stratigraphic units in Canton quadrangle 288
CYSTS and brown bodies of Trepostomata 351
— — Cystiphragms of the Trepostomata 350

DAGGETT, F. S., and J. C. MERRIAM, Excursion of California Meeting, August 13, 1915, in charge of..... 417
DAKOTA sandstone..... 311
